The Finest and Easiest Side Spring Buggy made is the Columbus

It has more desirable features than any other side spring gear. It is so constructed that the center or brace springs serve a double purpose, i. e., both a brace and an equalizer, consequently you get less side motion than on any other side spring gear. Put your whole left on one step of the Columbus and watch the result, then go through the same operation on any other side spring gear vehicle and you will find the Columbus goes down level, while the others will cant to one side. There has been over 40,000 vehicles with this gear sold, and so far as we know there has never been a spring broken, and its riding qualities are unsurpassed.

Take a Good Look at the Two Styles. We Have Others.

Lands For Sale.

LOTS IN KING STREET TRACT, from \$1,400 to \$1,250 a lot, formerly known as G. N. Wilcox's premises.

List of Locomotives, Cane Cars and Portable Track For Sale by The Hawaiian Commercial and Sugar Company.

Two BALDWIN LOCOMOTIVES, 24" gauge, 6 wheels connected, 6 feet 2" wheel base, 34" wheels, cylinders 10" x 14", side pump and injector, weight 12 tons, 8-wheel tenders, 1,200-gallon tanks.

Fifty SPARE TUBES, spare pistons, rings and stems, hangers, springs, shoes and wedges, injectors, oil cups, etc., etc.

One BALDWIN LOCOMOTIVE, 24" gauge, four 22" drivers, 40" wheel base, single pony truck in rear, weight 3 tons, 4-wheel tender, 800-gallon tank, cylinders 7" x 10", 2 headlights, also fitted with saddle tank.

One spare SMOKESTACK, spare hangers, springs, pistons, shoes and wedges, etc.

Four hundred CANE CARS.

Twenty-five FLAT CARS for hauling railroad iron.

Five miles of 12-pound PORTABLE TRACK, with steel sleepers of the Fowler patent.

Five to ten miles of 12-pound PERMANENT TRACK, together with fish plates. No bolts or spikes for same.

This whole outfit is a 2-foot gauge, and practically in good working order. The cars have a capacity of 2 to 4 tons of cane.

The reason for selling same is on account of increasing the gauge of roads, consequently necessitating new rolling stock.

Prices for same can be had of Alexander & Baldwin, Ltd., Honolulu, or the Hawaiian Commercial and Sugar Company, Spreckelsville, Maui.

Goods will be delivered F. O. B., Kahului wharf, Maui.

COMMERCIAL NEWS

BARRING the notification of the proposed reduction of the dividend of Oahu plantation company, from \$1.00 to fifty cents a share, there has been an unusually weak market during the past week, though the quotations show little change. The falling off of Oahu under the stress of the changing conditions which came with the dividend cut brought that stock down to \$110, according to some authorities, though there was a sale only at \$120. The most decided action was in Waiialua, where the stock which had been at \$60 for some time past fell away to \$50, that quotation being established through the sale of only five shares. There is more stock in the market waiting for a buyer at that figure but it is a small block and there is little doubt but the offering is due to a squeeze.

The banner sale of the week was of a block of 100 shares of Ewa which is holding up to the ordinary figure of \$25, despite small and large transfers. There was a small sale of 10 Waimanalo, the figure being \$152.50 which is an advance of \$2.50 a share over the last made sale and the readiness with which the shares were bought shows that there is something like ready cash loose for investment in good paying shares. The buying of \$5,000 Oahu plantation bonds at par, when the bonds have only three years yet to run, seems to indicate that there will be no difficulty in the future in finding what might be called a free market for dividend payers. The outlook is for poor business for some time to come.

REAL ESTATE BUSINESS.

There is little being done in real estate, probably from the same reason that the stock market is quiet. The only matter of moment was the giving of a trust deed by W. M. Campbell. The trust is formed for the reason that the money market is so slow that the payments could not be arranged for the buildings now under construction and this plan will conserve the interest of the builder. There are yet some details to be arranged and when these are finished there will be advanced all the money and materials for the completion of the seven houses which the contractor has in course of erection. There is a belief that the result of the offering of these houses to the public will develop just what is the limit of the market at this time. These houses will be ready for occupancy within the month and are said to be of the best that have been built by this contractor.

The contract for the proposed Swanzy residence on the Manoa road, Ewa of the street, will be let within a short time. The lowest bid is above \$22,000 and the building will be one of the handsomest in the city. There will be nothing done soon in the matter of the proposed Waity block on King street, owing to the absence of the owner in the States, for a prolonged stay. This block will be, when completed, of only two stories and will extend from the market to the new building. There will be an ornamental character imparted to the front, which will make the block a credit to the architect.

REAL ESTATE TRANSACTIONS.

Puna Sugar Co., Ltd., to R. Rycroft, piece of land, Puna, Hawaii. Consideration, \$1.

A meteorological station of unique interest is the Eiffel tower of Paris, on account of the height of the topmost platform above the surrounding country. The great wind velocity is the most striking feature of the records. The normal velocity exceeds eighteen miles an hour, which is more than three times as great as at a height of seventy feet, and rain gauges are practically useless on the top platform on account of the force of the wind.

Diphtheria germs survive at least fifteen years. This has been proved by two cases of diphtheria in children who could have contracted the disease in no way except through playing with toys that had been stored fifteen years in an old trunk.

"The duke," said the European gentleman, "belongs to one of the most eminent and influential families of our time." "Indeed?" responded the American millionaire, with interest. "Who is his father-in-law?" - Washington Star.

When clay is baked it becomes permanently magnetized in the direction of the earth's field. Polgehauser has been thus enabled to determine the magnetic dip of 3,000 years ago, from Tuscan vases, and more recently R. Brunhes and P. David have investigated geological deposits by the same method. Clay under

streams of lava becomes baked to a depth of two or three yards. The mass, unlike the vases, retains its orientation, so that both magnetic dip and magnetic declination may be found, and a well-defined magnetization, different from the present earth's field, has been found in some cubes of such clay near the Puys-de-Dome. The dip was 56 degrees 20 minutes, and the declination seven degrees to the east of the present compass. The age of the eruption remains to be determined. This discovery furnishes incidentally a test of the contemporary nature of two lava flows.

Sizing him up: Shopman-"What style of hat do you wish, sir?" Cholly-"Ah! I am not particular about the style; something to suit my head, don't ye know?" Shopman-"Step this way and look at our soft felts."-Tit-Bits.

NOTICE.

Intending Passengers by the S. S. Ventura,

Leaving Honolulu for San Francisco on October 29th, are hereby notified that the above mentioned steamer will be given quickest possible dispatch, not exceeding six (6) hours at this port, whether she arrives in the day or night time. Tickets for the above sailing must be purchased on Monday, October 28th, at the office of the undersigned.

This Company will not guarantee to arrange transportation, nor receive baggage after the arrival of the steamer.
